

CSA F21 By-Election – Director Forum Transcript: Ishaka Maharaj

Hey! I'm Isha and I'm running for the OAC Director at Large seat on the CSA Board of Directors. I'm currently in my 3rd year of animal bio and I want to use this role to help break stereotypes on campus, especially about the OAC.

In order to ensure that I am representing the best interests of my college, I would work to be in as much direct communication with the college as I can. The only way to ensure that the best interests of the college are at heart, is to listen to the college. Meaning, to listen to my peers and understand their perspectives

While I represent the OAC, it is important to make sure that the interests of the OAC are not to the detriment of any other college. Compromise is an important factor to ensure that the best possible outcome is achieved for all parties involved.

Communication and compromise are meaningless without actively taking action. I intend to work my best to ensure that I take action to solve any problems that may arise.

All in all - I will be the best representative that I can be and look forward to your continuing support in the fall 2021 by election

Thank you so much and have a great day!
